Contents

Volumn 149 Number 1 January 2001

CONTENTS

Forum

Editorial

1 Change for good reason

Commentary

2 What's new about cadmium hyperaccumulation?

Letters

4 Could the urea cycle be translocating nitrogen in the arbuscular mycorrhizal symbiosis?

Opinion

9 Depolarizing the GM debate

Meetings

12 Plant physiological ecology: linking the organism to scales above and below

Books

17 Molecular biology of the *Rhizobiaceae* • Science and the visual arts • Mycorrhizae research

Review

Tansley review no. 21

21 Scaling ozone effects from seedlings to forest trees
L. J. Samuelson & J. M. Kelly

Research

43 The algal polysaccharide carrageenans can act as an elicitor of plant defence
L. Mercier, C. Lafitte, G. Borderies, X. Briand, M. T. Esquerre-Tugaye & J. Fournier

53 Physiological evidence for a high-affinity cadmium transporter highly expressed in a *Thlaspi caerulescens* ecotype
E. Lombi, F. J. Zhao, S. P. McGrath, S. D. Young & G. A. Sacchi.
• **Commentary p. 2**

61 Ecotypic variation in selenium accumulation among populations of *Stanleya pinnata*
L. Jm. Feist & D. R. Parker

71 Ontogeny modifies the effect of water stress on stomatal control, leaf area duration and biomass partitioning of *Pennisetum glaucum*
T. Winkel, W. Payne & J.-F. Renno

83 Production of extracellular matrices during development of infection structures by the downy mildew *Peronospora parasitica*
R. Carzaniga, P. Bowyer & R. J. O'Connell

95 Phosphate transport by communities of arbuscular mycorrhizal fungi in intact soil cores
I. Jakobsen, C. Gazey & L. K. Abbott

105 Quantitative development of *Paris*-type arbuscular mycorrhizas formed between *Asphodelus fistulosus* and *Glomus coronatum*
T. R. Cavagnaro, F. A. Smith, M. F. Lorimer, K. A. Haskard, S. M. Ayling & S. E. Smith

115 Angiosperm *Gymnostoma* trees produce root nodules colonized by arbuscular mycorrhizal fungi related to *Glomus*
E. Duhoux, G. Rinaudo, H. G. Diem, F. Auguy, D. Fernandez, D. Bogusz, C. Franche, Y. Dommergues & B. Huguenin

127 Immunolocalization of hydrophobin HYDPt-1 from the ectomycorrhizal basidiomycete *Pisolithus tinctorius* during colonization of *Eucalyptus globulus* roots
T. Tagu, R. De Bellis, R. Balestrini, O. M. H. De Vries, G. Piccoli, V. Stocchi, P. Bonfante & F. Martin

137 Can ^{14}C-labeled photosynthetic products move between *Pinus densiflora* seedlings linked by ectomycorrhizal mycelia?
B. Wu, K. Nara & T. Hogetsu

147 Instructions to Authors

Volumn 149 Number 2 February 2001

CONTENTS

Forum

Editorial

153 Welcome to new editors

Commentary

154 Increasing atmospheric CO_2 and stomata • Nitrogen and ectomycorrhizal fungal communities: what we know, what we need to know

Analysis

159 Adding pieces to fungal mosaics

Books

163 Early germination events – a personal perspective
• Plant–microbe molecular communication
• Endangered plants in Iran

Review

Tansley review no. 22

167 The apoplast and its significance for plant mineral nutrition
B. Sattelmacher

Research

193 Altered patterns of tubulin polymerization in dividing leaf cells of *Chlorophyton comosum* after a hyperosmotic treatment
G. Komis, P. Apostolakos & B. Galatis

209 Periplasmic cuticular calcium oxalate crystal deposition in *Dracaena sanderiana*
S. V. Pennisi, D. B. McConnell, L. B. Gower, M. E. Kane & T. Lucansky

219 Structure and composition of the thick wall in hair root epidermal cells of *Woollsia pungens*
C. L. Briggs & A. E. Ashford

233 Stable isotope analysis reveals differential effects of soil nitrogen and nitrogen dioxide on the water use efficiency in hybrid poplar leaves
R. T. W. Siegwolf, R. Matyssek, M. Saurer, S. Maurer, M. S. Günhardt-Goerg, P. Schmutz & J. B. Bucher

247 Stomatal conductance of forest species after long-term exposure to elevated CO_2 concentration: a synthesis
B. E. Medlyn, C. V. M. Barton, M. S. J. Broadmeadow, R. Ceulmans, P. De Angelis, M. Forestreuter, M. Freeman, S. B. Jackson, S. Kellomäki, E. Laitat, A. Rey, P. Roberntz, B. D. Sigurdsson, J. Strassemayer, K. Wang, P. S. Curtis & P. G. Jarvis
• **Commentary p. 154**

265 Elevated CO_2 increases biomass and tuber yield in potato even at high ozone concentrations
A. Donnelly, J. Craigon, C. R. Black, J. J. Colls & G. Landon

275 Ash content might predict carbon isotope discrimination and grain yield in durum wheat
O. Merah, E. Deléens, I. Souyris & P. Monneveux

283 Neither mycorrhizal inoculation nor atmospheric CO_2 concentrations has strong effects on pea root production and root loss
M. E. Gavito, P. S. Curtis & I. Jakobsen

291 Photosynthesis in a sub-Antarctic shore-zone lichen
V. R. Smith & N. J. M. Gremmen

301 Polyamine metabolism is upregulated in response to tobacco mosaic virus in hypersensitive, but not susceptible, tobacco
F. Marini, L. Betti, S. Scaramagli, S. Biondi & P. Torrigiani

311 Nitrogen addition in a Norway spruce stand altered macromycete sporocarp production and below-ground ectomycorrhizal species composition
M. Peter, F. Ayer & S. Egli
• **Commentary p. 156**

327 Interdependence of phosphorus, nitrogen, potassium and magnesium translocation by the ectomycorrhizal fungus *Paxillus involutus*
G. Jentschke, B. Brandes, A. J. Kuhn, W. H. Schröder & D. L. Godbold

339 Polymorphism of simple sequence repeats reveals gene flow within and between ectomycorrhizal *Suillus grevillei* populations
Z. Zhou, M. Miwa & T. Hogetsu

349 Rutin, the phenolglycoside from eucalyptus root exudates, stimulates *Pisolithus* hyphal growth at picomolar concentrations
H. Lagrange, C. Jay-Allgmand & F. Lapeyrie

Volumn 149 Number 3 March 2001

CONTENTS

Forum

Commentary

357 What do root pathogens see in mycorrhizas?

Meetings

360 Aardvark to *Zyzyxia* – functional groups across kingdoms

Books

365 A timely celebration of trees • Induced plant resistance • Species concepts – the continuing debate

Review

Tansley review no. 123

369 Tree and forest functioning in response to global warming
H. Saxe, M. G. R. Cannell, Ø. Johnsen, M. G. Ryan & G. Vourlitis

Research

401 Elicitor induced defence responses in *Medicago sativa*
M. Tang & C. J. Smith

419 Night-time respiration rate and leaf carbohydrate concentrations are not coupled in two alpine perennial species
C. L. McCutchan & R. K. Monson

431 Photosynthesis might be limited by light, not inorganic carbon availability, in three intertidal Gelidiales species
J. M. Mercado, F. Xavier Niell & M. C. Gil-Rodríguez

441 Light and salinity affect growth of the salt marsh plant *Aster laurentianus*
C. E. Reynolds, G. Houle & C. Marquis

449 Short photoperiods induce fructan accumulation and tuberous root development in *Dahlia* seedlings
G. Legnani & W. B. Miller

455 Nutrients and pH regulate algicide accumulation in cultures of the cyanobacterium *Oscillatoria laetevirens*
S. Ray & S. N. Bagchi

461 Impacts of increased nitrogen supply on high Arctic heath: the importance of bryophytes and phosphorus availability
C. Gordon, J. M. Wynn & S.J. Woodin

473 Linking wood density with tree growth and environment: a theoretical analysis based on the motion of water
M. L. Roderick & S. L. Berry

487 Interactions between pea root-inhabiting fungi examined using signature fatty acids
J. Larsen & L. Bødker
• **Commentary p. 357**

495 Symbiotic specificity of tropical tree rhizobia for host legumes
A. Bala & K. E. Giller

509 Influence of elevated CO_2 concentration on disease development in tomato
N.-S. Jwa & L. L. Walling

519 Trehalose induces resistance to powdery mildew in wheat
Ph. Reignault, A. Cogan, J. Muchembled, A. Lounes-Hadj Sahraoui, R. Durand & M. Sancholle

531 Water stress and *Sphaeropsis sapinea* as a latent pathogen of red pine seedlings
G. R. Stanosz, J. T. Blodgett, D. R. Smith & E. L. Kruger

539 Inter- and intra-isolate rRNA large subunit variation in *Glomus coronatum* spores
J. P. Clapp, A. Rodriguez & J. C. Dodd

555 Differentiation of polyphosphate metabolism between the extra- and intraradical hyphae of arbuscular mycorrhizal fungi
T. Ezawa, S. E. Smith & F. Andrew Smith

565 Nuclear ribosomal sequence analysis of *Oidiodendron*: towards a redefinition of ecologically relevent species
I. Lacourt, M. Girlander, S. Perotto, M. Del Pero, D. Zuccon & A. M. Luppi

577 Genetic variability of *Pisolithus* isolates associated with native hosts and exotic eucalyptus in the western Mediterranean region
J. Diez, B. Anta, J. L. Manjón & M. Honrubia

589 Genetic diversity of fungi closely associated with common reed
S. G. R. Wirsel, W. Leibinger, M. Ernst & K. Mendgen

599 Corrigendum

601 Author index

604 Keyword index
